FOLIO SERIES: NO. 5 LONE JACK

The American Civil War: both sides saw the other as "invaders," so the fight quickly escalated to one of extreme violence. The fight seesawed up and down the main street of Lone Jack, and when the rebels fired the Cave Hotel, a Yankee stronghold, their advantage appeared decisive. Foster now wheeled his only two artillery pieces forward, blasting the gray attack with double-shotted canister. The Confederates owned the field as well as the dead. They quickly gathered the remains of the fallen, already spoiling under the torrid sun. Friend and foe alike they buried beneath the arching shade of the lone jack oak. The year is 1619. Matthias, emperor of Germany, has gone to his grave. A year-old rebellion in the imperial province of Bohemia has divided the empire along religious and political lines. Protestant princelings rally to Frederick, elevating his status to that of a rival to Emperor Ferdinand II, Archduke of Austria, for the imperial throne. As mercenary armies are raised against Ferdinand, the Catholic King of Spain and Duke of Bavaria rally to his side. France and Sweden turn their attention to Germany in eager anticipation of the dismemberment of their great rival, the Holy Roman Empire. *Holy Roman Empire* is a six-player political and military game of the 17th Century struggle that plunged Europe into one of its longest wars.
